## 1. PURPOSE

The purpose of this procedure is to describe-

- (a) the requirements; and
- (b) the responsibilities and practices of personnel;

that apply to reconsigning of original or splitting a consignment in original packaging of produce covered by a Plant Health Certificate under an Interstate Certification Assurance (ICA) arrangement.

## 2. SCOPE

This procedure covers all splitting of consignments and reconsigning of original consignments of certified produce covered by a business operating under an ICA arrangement in Western Australia.

A certified consignment can be covered by:

- a certificate issued by an Inspector or other authorised officer (Plant Health Certificate); or
- a certificate issued by a Business operating under an ICA arrangement (Plant Health Assurance Certificate)

This procedure is not intended for use by the business that prepared the produce. If the business that prepared the produce is deciding on the destination of parts of a consignment, separate certificates must be issued at the time of certification.

It is the responsibility of the Business reconsigning the produce to ensure compliance with all applicable quarantine requirements. Information on Interstate quarantine requirements are to be obtained from the authority in the intended destination state.

## 4. DEFINITIONS

Accredit	means to accredit persons to issue Plant Health Assurance Certificates under the Biosecurity and Agriculture Management Act 2007.
Accrediting Authority	means the Department of Primary Industries and Regional Development, Western Australia
Application for Accreditation	means an <i>Application for Accreditation of a Business for an Interstate Certification Assurance (ICA) Arrangement</i>
Assurance Certificate	means a Plant Health Assurance Certificate.

Authorised Signatory	means a person whose name and specimen signature is provided as an authorised signatory with the Business's Application for Accreditation.
Business	means the legal entity responsible for the operation of the facility and ICA arrangement detailed on the Business's Application for Accreditation.
Certification Assurance	means a voluntary arrangement between the Department of Primary Industries and Regional Development Western Australia and a Business that demonstrates effective in-house quality management and provides assurance through documented procedures and records that produce meets specified requirements.
Certified/Certification	Means Covered by a valid Plant Health Assurance Certificate or Plant Health Certificate or a product movement declaration.
certified produce	means produce covered by one or more of the following certificates – a Plant Health Certificate issued by an Inspector; or a Plant Health Assurance Certificate issued by a business operating under an ICA arrangement
consignor	means the person or business responsible for deciding the destination of the produce after it leaves the place of certification.
consignee	means the person or business to whom the produce is initially consigned following certification and who will be responsible for deciding the next destination of the produce if it is reconsigned.
facility	means the location where plants, fruit and vegetables are assembled, inspected, treated, securely stored, certified and dispatched.
ICA	means Interstate Certification Assurance.
Inspector	means an inspector appointed under <i>The Biosecurity and Agriculture Management Act 2007</i>
Interstate Certification Assurance	means a system of Certification Assurance developed to meet the requirements of State and Territory governments for the certification of produce for interstate and intrastate quarantine purposes.
original consignment	means the whole or intact consignment, in the original Packaging and as it left the place of certification.
Plant Health Assurance Certificate	means certification issued by an Authorised Signatory of an accredited business
Plant Health Certificate	Means a certificate issued by an authorised officer in another State or Territory
prepared	means subjected to a chemical or physical disinfestation treatment or graded to meet a condition requirement.

reconsignee	means the person or business to which the produce is next consigned after the original consignment.
reconsign	means forwarding original whole consignments or sub-consignments on to another person or business after the original consignment destination.
splitting a consignment	means the act of dividing an original consignment into sub-consignments for the purpose of: <ol style="list-style-type: none"> <li>sending the sub-consignments to a different consignee; or</li> <li>transporting the sub-consignments to the same consignee on different vehicles or via different transport methods.</li> </ol>
sub-consignment	means the part of the original consignment that is being split from the rest of the consignment.
sub-consignment certificate	means a Plant Health Assurance Certificate or Plant Health Certificate for a sub-consignment issued by a Business accredited under this Operational Procedure.

## 5. RESPONSIBILITY

The **Certification Controller** is responsible for -

- ensuring the Business has current accreditation for an ICA arrangement covering splitting consignments of certified produce;
- training staff in their responsibilities and duties under this Operational Procedure;
- ensuring the Business and its staff comply with their responsibilities and duties under this Operational Procedure;
- maintaining all original Plant Health Certificates and copies of sub-consignment certificates for all split consignments in accordance with 7.7 System Records

The **Authorised Signatory** is responsible for -

- ensuring original consignments are reconsigned and certificates are prepared and issued in accordance with 7.1.1 Reconsigning Whole Consignments.
- ensuring original consignments are split and sub-consignment certificates are prepared and issued in accordance with 7.3 Splitting Consignments.

## 6. REQUIREMENT

Only a business which has been accredited under this procedure may reconsign a whole consignment of certified produce, or split a consignment of certified produce and issue sub-consignment certificates, for movement to intrastate or interstate markets requiring quarantine certification.

## 7. PROCEDURE

### 7.1 Accreditation of a Business for Splitting Consignments of Certified Produce

A Business seeking accreditation for an ICA arrangement to split consignments of certified produce must apply by lodging an Application for at least ten (10) working days prior to the intended date of commencement of splitting consignments of certified produce under this Operational Procedure.

#### 7.1.1 Application for Accreditation

A Business seeking accreditation for an ICA arrangement under this Operational Procedure must make application for accreditation at least 10 working days prior to the intended date of commencement of certification of produce.

#### 7.1.2 Audit Process

##### Initial Audit

Prior to accrediting a Business, an Inspector carries out an initial on-site audit of the Business to verify the ICA system is implemented and capable of operating in accordance with the requirements of the Operational Procedure, and the system is effective in ensuring compliance with the specified requirements of the ICA arrangement.

On completion of a successful initial audit, applicants will be granted provisional accreditation and posted a Certificate of Accreditation (refer 7.1.3 Certificate of Accreditation).

##### Compliance Audits

Compliance audits are conducted to verify that the ICA system continues to operate in accordance with the requirements of the Operational Procedure.

A compliance audit is conducted within four weeks of the initial audit and accreditation of the Business or issue of the first PHAC.

On completion of a successful compliance audit, annual accreditation is granted to cover the current season, up to a maximum of twelve months from the date of provisional accreditation, and a new Certificate of Accreditation is issued (refer 7.1.3 Certificate of Accreditation).

Ongoing compliance audits are conducted at least once every twelve months.

Random audits are conducted on a selected number of accredited Businesses each year. Random audits may take the form of a full compliance audit, or audits of limited scope, certified produce, ICA system records or ICA system documentation.

Unscheduled compliance audits may be conducted at any time to investigate reported or suspected non-conformance.

##### Re-Accreditation

Accredited Businesses are required to re-apply for accreditation each year the business seeks to operate under the ICA arrangement. Businesses seeking re-accreditation must lodge a renewal application prior to accreditation lapsing, or if accreditation has lapsed, prior to being accredited to certify produce under the ICA arrangement.

A compliance audit is conducted within four weeks of the Business applying for re-accreditation each year.

## 7.1.3 Certificate of Accreditation

An accredited Business will receive a Certificate of Accreditation for an Interstate Certification Assurance Arrangement detailing the facility location, Operational Procedure, scope (type of covered) and period of accreditation.

The Business must maintain a current Certificate of Accreditation and make this available on request by an Inspector.

A Business may not commence or continue certification of produce under the ICA arrangement unless it is in possession of a valid and current Certificate of Accreditation for the procedure, produce type covered by the Plant Health Assurance Certificate.

## 7.2 Reconsigning Whole Consignments

Where the intended destination is different to the original consignee, the business must ensure that the certified produce will meet the quarantine entry requirements of the state or territory destination.

When reconsigning whole consignments, certificates accompanying the produce are to be reconciled against the packages intended for consignment to verify date code, package markings, and to ensure certificate completion is accurate. The original certificate must be amended/endorsed as indicated below and must accompany the consignment (refer to Attachment 1 and 2).

### (a) Reconsigned to:

- (i) in the case of a Plant Health Certificate, cross out the original Consignee on the PHC and write the new Consignee next to it; and
- (ii) in the case of a Plant Health Assurance Certificate, insert the name and address of the Reconsignee in the box provided on the PHAC.

### (b) Authorisation for Reconsigning:

Insert the signature of the Authorised Signatory reconsigning the consignment and the date of reconsignment with a stamp that includes:

- (i) the name of the accredited business;
- (ii) the address of the facility;
- (iii) the Interstate Produce (IP) number of the accredited business; and
- (iv) the words "MEETS ICA-17".

### 7.2.1 Distribution of Certificate

- The original amended certificate must accompany the consignment to the interstate or intrastate business to which it is reconsigned.
- A photocopy of the amended/endorsed original must be made prior to dispatch and retained by the accredited Business for at least 12 months for audit purposes.

## 7.3 Splitting Consignments

Where the intended destination is different to the original consignee, the business must ensure that the certified produce will meet the quarantine entry requirements of the state or territory destination.

A valid reason must be needed for a Business to split a consignment. Valid reasons can include:

- sending parts of an original consignment to different consignees; or
- transporting sub-consignments on different vehicles or via different transport methods to the same consignee.

Normally businesses such as transport operators or wholesalers who are redirecting produce to different consignees or destinations will be eligible for accreditation under this Operational Procedure.

When splitting consignments, certificates accompanying the produce are to be reconciled against the packages intended for consignment to verify date code, package markings, and to ensure certificate completion is accurate. Photocopy the original certificate to prepare one or more sub-consignment certificates (refer to Attachment 3 and 4).

Amend each photocopy of the original certificate so that it shows the following sub-consignment details:

**(a) Reconsigned to:**

- in the case of a Plant Health Certificate (issued by an Inspector), cross out the original Consignee on the PHC and write the new Consignee next to it; and
- in the case of a Plant Health Assurance, insert the name and address of the Reconsignee in the box provided on the PHAC.

**(b) Number of Packages:**

- Cross out the number of packages in the original consignment; and
- Insert the number of packages in the sub-consignment under the crossed out number of packages in the original consignment.

**(c) Authorisation for Split Consignment:**

Insert the signature of the Authorised Signatory splitting the consignment and the date of reconsignment with a stamp that includes:

- the name of the accredited business;
- the address of the facility;
- the Interstate Produce (IP) number of the accredited business; and
- the words "MEETS ICA-17".

A photocopy of each amended sub-consignment certificate must be made prior to dispatch and retained by the accredited Business for at least 12 months for audit purposes.

## 7.3.1 Distribution of Certificate

- The amended sub-consignment certificate must accompany the consignment to the interstate or intrastate business to which it is reconsigned.
- The original certificate must be retained by the Business for at least 12 months for audit purposes.

## 7.4 Secondary Wholesalers

Secondary wholesalers who purchase part of an original consignment from another wholesaler for on-sale to a market requiring certification should obtain a sub-consignment certificate from the original Consignee (the first wholesaler) addressed to them (the secondary wholesaler) as the Reconsignee (see Section 7.3).

When reconsigning or splitting the sub-consignment, the sub-consignment certificate supplied by the original Consignee shall be treated as an original certificate and the procedures detailed in Section 7.1.1 and 7.3 apply.

Place the Reconsignee's name and address and the authorising stamp and signature in any vacant area on the form as close as possible to the alteration.

## 7.5 Consignment Reconciliation Records

The business shall maintain a Consignment Reconciliation Record or records which capture the same information (see Attachment 5)

The business' Consignment Reconciliation Record which must identify;

- the Plant Health Certificate or Plant Health Assurance Certificate Number accompanying the consignment; and
- verification that the date code on packages is recorded on the certificate; and
- if applicable, verification the certification sufficient to meet plant quarantine entry conditions for the intended destination state; and
- verification results and follow-up action by the Authorised Signatory; and
- the number of withdrawn or rejected packages; and
- the Authorised Signatory's name and signature.

## 7.6 Identification and Traceability of Certified Produce

All packages issued under reconsignment or split consignment certification shall carry package identification in accordance with the Operational Procedure implemented by the original issuing business. Package identification must be reconciled with original plant health certification prior to issuance of amended reconsignment, or split consignment certification.

## 7.7 ICA System Records

The Business must maintain the following records:

- a copy of any amended original certificate where whole original consignments have been reconsigned;
- the original certificate for all split consignments; and
- a copy of each sub-consignment certificate issued.
- a copy of the Work Instruction WI-QA015 Guidelines for Completion of Plant Health Assurance Certificates.
- Consignment reconciliation records.

Records must be retained for at least 12 months from completion or until the next compliance audit, whichever is the latter.

Records shall be made available on request to an authorised person.

## 7.8 ICA System Documentation

The Business must maintain the following documentation:

- A copy of the current endorsed Application for Accreditation;
- A current copy of this Operational Procedure; and
- A current Certificate of Accreditation.

## 8. NON-CONFORMANCES AND SANCTIONS

### 8.1 Non-conformances

Audits are regularly undertaken to evaluate the effectiveness of implementation of ICA requirements. If, in the opinion of the auditor, there is evidence indicating that there has been a failure to meet one or more accreditation requirements, the auditor may raise a Non-conformance Report (NCR). Actions required to address the non-conformance must be discussed and recorded on the NCR.

If the integrity of the accreditation has been significantly compromised, the non-conformance may provide grounds for the suspension or cancellation of the accreditation.

### 8.2 Incident Reports

Incident Reports may be raised to report the detection of a non-conformance in produce certified under this ICA arrangement. An investigation into the incident must be conducted and findings reported back to the originator.

If the integrity of the accreditation has been significantly compromised, the incident may provide grounds for the suspension or cancellation of the accreditation.

### 8.3 Suspension and Cancellation

DPIRD may suspend or cancel an accreditation when an accredited business is found, for example, to have:

- obtained accreditation through the provision of false or misleading information;
- not paid fees owing to the DPIRD;
- contravened an accreditation requirement that compromises the integrity of the arrangement; and/or
- not rectified a non-conformance.

Any action taken by DPIRD to suspend or cancel an accreditation must be provided in writing to the business. This must also provide guidance on the lodgement of a written appeal requesting that the decision be reviewed.

## 9. CHARGING POLICY

The Business will be charged for all audit and investigation activities on a time basis at current rates prescribed by the DPIRD.
